

Dear Prof. Ross Garnaut,

I will keep it brief, but I am writing to show support for the case for “Australia to set strong, science-based targets to reduce greenhouse pollution by at least 30 per cent by 2020”

I would like to see an even higher reduction in Co2 emissions and an end to our coal export industry.

Keep up the great work!

You can not have Society, let alone an Economy without a functional Ecosystem.
