

Hello my name is Jules,

I am writing to you to voice an opinion that, yes, we should cut admissions dramatically NOW!! but the thing that worries me is having to say this in the first place, I mean isn't it just a no brainer, that we have to help our planet, our wildlife, our eco systems and the human race.

We don't know at this point whether we can survive our own stupidity. When will greed for money and materialism become passe and love of life be valued and all its natural beauty be protected as a priority. That is true intelligence to me. Kind Regards Jules Bourke.
